Adjunct Lecturer in Environmental Studies

The Department of Environmental Studies at Wofford College seeks an adjunct lecturer for the Spring 2019 semester (February through mid-May) for one course titled “Quantitative Methods and Models in Environmental Studies” at the 200 level. The course design is somewhat flexible but should include development and use of geographic information systems skills. It is a four-credit course with lecture and laboratory.

The Department of Environmental Studies provides the foundation for students to address the complex environmental problems of their generation, recognizing that approaches from the humanities and arts, natural sciences and social sciences are all needed for effective local, regional and global change. Field experiences foster the wonder and love for natural environments that motivate students’ personal and professional choices. Environmental studies BA and BS graduates have entered the fields of conservation, law, business, energy, land and resource management, environmental science and engineering, among others. Please visit the departmental website at www.wofford.edu/environmentalstudies to learn more about the program, the Goodall Environmental Studies Center and the Milliken Sustainability Initiative at Wofford College.

APPLICATION
Interested applicants should send a cover letter, curriculum vitae, and statement of teaching philosophy, along with the names and contact information for three references, as attachments, to envs-search@wofford.edu. Applications received by Nov. 15, 2018, will be guaranteed full consideration.
