<b>35. Village 300 Series Units</b>	Gravel lot behind units; stay away from paved fire lanes
<b>36. Michael S. Brown Village Center</b>	Grass in front of Apt 110

In the event of a fire in a residence hall, RAs will pull a fire alarm even if an alarm has already sounded on the way out of the closest exit. Call Campus Safety (864-597-4351) immediately after you have cleared the building and are in your designated assembly area. All residents will evacuate the building using the closest, unblocked exit and go directly to the assembly area listed above. Never attempt to use an elevator. If in a class, find your classmates at your assembly area because your instructor will be trying to get accountability. Try to stay out of parking lots because that is a likely place for emergency vehicles to gather. Never assemble near a hydrant or fire department connection (FDC). Never gather along curbs or fire lanes. These will be used by the emergency vehicles and crews. Some of these assembly areas seem a long distance from the dorm but they are clear of hydrants and FDCs.
